Izložba prezentira radove duševno oboljele pijanistice Marije Novaković (Zagreb, 1885. – Zagreb, 1960.), koja je velik dio svog života provela u Klinici za psihijatriju Vrapče i koja je ostvarila iznimno zanimljiv i kvalitetan opus crteža i slika, ne samo unutar fundusa Muzeja psihijatrijske bolnice već i unutar korpusa marginalne (outsider) umjetnosti u Hrvatskoj. Njezini crteži i slike nastali su u razdoblju između 1936. i 1957. godine i pretežito su autobiografskog karaktera.

The exhibition presents the work of a mentally ill pianist Marija Novaković (Zagreb, 1885 – Zagreb, 1960), who has spent a great part of her life in the Department of Psychiatry in Vrapče and who has created an extremely interesting work of high quality drawings and paintings, not only within the Museum of the Psychiatric Hospital's collection but also within the corpus of marginal (outsider) art in Croatia. Her drawings and paintings were created between 1936 and 1957 and are mostly autobiographical.
